Nūprep[®]

Abrasive Skin Prep Gel

Nuprep[®] Skin Prepping Gel

Nuprep is a mild abrasive gel that strips away dry surface skin and moistens the corneum skin layer. Gently applied, Nuprep Gel improves conductivity and helps achieve high quality tracings.

Nuprep Gel has earned an excellent reputation through extensive use by leading cardio-technologists in medical facilities throughout the world.

Nuprep Gel is valuable whenever a reduction in skin impedance would enhance performance of a monitoring electrode. Gently apply Nuprep Gel to the skin site prior to attaching the electrode. Nuprep Gel virtually eliminates problems such as diaphoresis and muscle artifact.

Zero in on these procedures with Nuprep Gel.

- Cardiac Stress Test
- Holter Monitoring
- Cardiac Rehabilitation Monitoring
- Cardiac Catheter Monitoring
- ECG Telemetry
